

## CURRICULUM VITAE

*Carlo Federico Perali*

### **Office address**

Department of Economics - University of Verona

Via Cantarane, 24 - 37129 Verona - Italy

Tel-fax. 0039-045-8028486

E-mail: [federico.perali@univr.it](mailto:federico.perali@univr.it)

Personal web-page: <https://sites.google.com/site/fedeperali1/>

**Actual position** Full Professor in Political Economy (since 2001)

### **Education**

Ph.D. in Economics - May 1993

Major field: Development Economics

University of Wisconsin-Madison

Dissertation: "Consumption, Demographics, and Welfare Measurement: Metric and Policy Applications to Colombia."

### **Scholarships and Grants**

Fullbright Grant offered by the Association for the Exchange of Students between Italy and United States of America (1986).

Corrado Gini Foundation fellowship (1987 and 1989).

### **Awards**

Distinguished Master Thesis of the University of California – Davis to compete at the 1989 Western Association of Graduate Schools (WAGS) Distinguished Master's Thesis Award.

1994 *Outstanding Ph.D. Dissertation* assigned by the *American Agricultural Economics Association*.

**Languages** English, Spanish, French (working proficiency)

### **Teaching activities**

#### *Undergraduate level*

Economics of International Markets, University of Verona (1993-1996).

Econometrics, University of Verona (1994-2002).

Comparative Economic Systems, University of Verona (1999).

Political Economy, University of Verona (1999 - to present).

Labour Economics, University of Padua (2002).  
Economic Modelling, University of Verona (2003-2008).

*Master level*

*Cost Analysis, Estimation of Efficiency, and Analysis of Market Power* - Master in Economics of Competition and Regulation in Public Utilities, University of Rome, Tor Vergata (2002).

*Applied Economics*, Master in Economics, MAGEC, University of Verona (1996-2008).

*Development Economics*, Master in Economics, MAGEC, University of Verona (2009 - ).

*Behavioral Economics, Bargaining and Game Theory*, Post-Graduate Course “Negotiate to Mediate” University of Verona (2015 - ).

*Ph.D. level*

*At the University of Verona:*

*Consumer Behaviour* - International Doctoral Programme in Economics and Finance at the University of Verona, 1997 until 2012.

*Welfare and General Equilibrium* - International Doctoral Programme in Economics and Finance at the University of Verona, 1997 until 2012.

*Development Economics* - International Doctoral Programme in Economics and Finance at the University of Verona 2013 up to present.

*Invited lecturer in the Doctoral Programs of the Universities of:*

*Duality and the Parametric and Non-Parametric Estimation of Efficiency* at the University of Gdansk, Poland, within the TEMPUS program (1994).

*Welfare Analysis and Microsimulation* at the University of Gdansk, Poland, within the TEMPUS program (1995).

*Advanced Demand Analysis*, University of Cyprus, Nicosia (1996).

*Production Analysis and Efficiency Measurement* at the University of Oviedo, Spain, within the ERASMUS program (1998).

*Collective Household Models and Welfare* at the University of Cergy-Pontoise, Paris and THEMA (2001).

*Collective Demand Analysis and Social Welfare* at the Universidad Nacional de Colombia, Bogotá, Colombia (2007).

*Consumer Theory and Welfare Analysis* at the University of Calabria, Arcavacata, Italy, (2010).

*Consumption, Welfare and Micro-Macro General Equilibrium: from the Individual to Society* at the Instituto de Estudios Fiscales, Spain, (2011).

*Collective Models and Policy Applications*, Université de Paris II, Pantheon, (2013).

*Welfare Economics and Applied General Equilibrium* at the University of Florence, Italy, (2013).

*Collective Consumption, Equivalence Scales and Welfare: from the Individual to Society*, University of Luxembourg and LISER, (2013).

*Ph.D. Supervision*

Supervision of more than 30 students (about 60% are now at international universities, 15% at Italian universities, 20% at research institutions in Europe and US, 5% other employments).

*Actual Ph.D. Supervisions*

Darlington Agbonifi (Congo), University of Verona

Getachew Y. Belete (Ethiopia), University of Verona

Lucia Echeverria, Universidad Mar de la Plata (Argentina)

Scientific Supervisor - Marie-Curie Fellowship

Eleftherios Giovanis (Greece)

### Recent experience

- Visiting Professor – Jan. 15 - Feb. 15, 2018 Monash University, Dept. of Economics, Melbourne, Australia.
- Visiting Professor – October 10 – November 10, 2017, Department of Agricultural and Applied Economics, University of Wisconsin-Madison.
- Visiting Professor – September 2017, University of Ottawa, Department of Sociology, Canada.
- Consultant for Caritas Europa - *A New Welfare System for Europe* (2015).
- Invited Researcher at CEPS-Instead, actual LISER (October-December 2013).
- Invited Researcher at University of Paris II – Pantheon (February 2013).
- Research consultant for the Centro Internazionale di Studi sulla Famiglia for the research *Indagine sulle condizioni di vita della famiglia Italiana* (2009).
- Consultant for the Valle D’Aosta Region for the Study of the *Regional Development and Growth using Social Accounting Matrices and General Equilibrium Models* (2006).
- Consultant for ISMEA/Federalimentare (Confindustria) for the *Forecast to year 2015 of the Italian Economy* with Special Emphasis on the Food Industry using a Dynamic General Equilibrium Model (2005).
- Consultant for ISMEA/Ministry of Agriculture – *General Equilibrium Analysis of the PAC Reform* (2004).
- Consultant for OECD – *Micro-Macro Analysis of Political Economy Models for the Evaluation of the Impact of Liberalization* (2003-2005).
- Consultant for the Italian Poverty Commission for the estimation of *Equivalence Scales for Italy* (2003-2005).
- Member of the Task Force on Statistics on Rural Development and Agricultural Household Incomes (UNECE, OECD, FAO, Eurostat) (2003-2005).
- Consultant for the project “*Understanding Children’s Work - an Inter-Agency Research Cooperation Project on Child Labour,*” Unicef - ILO- World Bank (2002-2003).
- FAO consultant as Agricultural Policy Trainer in Damasco, Siria, within the project “*Assistance in Institutional Strengthening and Agricultural Policy*” GCP/SYR/006/ITA (FAO). Responsible for training in “*Consumption and Welfare Economics*” (2002).
- Visiting Professor - University of Cergy-Pontoise, Paris and THEMA (Center of Economic Theory, Models and Applications) (<http://thema.uparis10.fr/>) (1 month 2001).
- Expert for the evaluation of EU Projects - V Programme on the Quality of Life and Management of Resources (1999-2000).
- FAO consultant as Agricultural Policy Trainer in Damascus, Syria, within the project “*Assistance in Institutional Strengthening and Agricultural Policy*” GCP/SYR/006/ITA (FAO). Responsible for training in “*Consumption and Welfare Economics.*” (1999)
- Consultant for the Vatican Commission for Peace and Justice on the issue of *Land Distribution and Agrarian Reform* (1998).
- Principal investigator for the Italian Poverty Commission on the estimation of *Italian Household Equivalence Scales* (1997).

Consultant for Telecom Italia as principal investigator on “*The Impact of Telecommunication Technologies on the Use of Time of Italian Households*” (1997).

World Bank consultant for the *Poverty Assessment for Djibouti*, Africa (1996).  
Bibliographic Reference: “Djibouti: Crossroads of the Horn of Africa - Poverty Assessment,” Report No.16543 - The World Bank, Washington D.C., 1997.

Visiting Scientist and Joined Staff - Centro Internacional de Agricultura Tropical - CIAT Cali, Colombia (1993-1995).

### **Other relevant information**

He is referee for the following scientific journals: *Oxford Economic Papers*, *Journal of Population Economics*, *European Journal of Operation Research*, *American Journal of Agricultural Economics*, *Empirical Economics*, *Journal of Productivity Analysis*, *Journal of Economic Inequality*, *Journal of Applied Econometrics*, *Review of Economics and Statistics*, *Journal of Economic Modelling*, *Journal of Economic Studies*, *Journal of Entrepreneurial and Organizational Diversity*, *Review of Household Economics*, *Review of Income and Wealth*, *Social Indicators Research*, *European Economic Review*, *Stata Journal*. Italian Journals: *Note Economiche*, *Ricerche Economiche*, *Economia Politica*, *Politica Economica*, *Rivista Internazionale di Scienze Sociali*, *QA*, *Rivista Italiana degli Economisti*.

### **Affiliations**

He is a member of the Italian Economic Association, European Economic Association, American Economic Association, European Association of Population and Family Economics, Econometric Society, International Association for Research on Income and Wealth, and a founding member of ECINEQ and the Italian Association of Development Economics.

### **Institutional activities**

Head of the International Doctorate Program in Economic Policy at the University of Verona (<http://pilar.univr.it/dottorato>) (2002 to 2006).

Head of the Department of Economics at the University of Verona in the period 2006 – 2013.

Director of the Doctoral School in Law and Economics of the University of Verona in the period 2014-2015.

Co-founder and member of the “Center for Household, Income, Labor and Demographics - CHILD” and member of the Scientific Committee (<http://www.child-centre.it>).

Member of the Scientific Committee “Centro di Ateneo di Studi e Ricerche sulla Famiglia”, Università Cattolica del Sacro Cuore, Milano ([http://centridiateneo.unicatt.it/centro\\_di\\_ateneo\\_studi\\_e\\_ricerche\\_sulla\\_famiglia](http://centridiateneo.unicatt.it/centro_di_ateneo_studi_e_ricerche_sulla_famiglia)).

Member of the Scientific Committee of the Italian Center for International Development – University of Rome – Tor Vergata (<http://www.icid.info>).

Co-founder of the “Italian Association of Development Economists” and member of the Scientific Committee (<http://www.sitesideas.org>).

Co-founder of the start-up “Economics Living Lab” (<http://www.econlivlab.eu>).

Member of the Research Commission – Free University of Bolzano (2016-present).

Member of the “Donato Menichella” Commission – Best Thesis Selection - Bank of Italy (2015-2017).

Treasurer of ECINEQ (2009-2011).

Organizer and scientific member of the International Doctoral (Winter) School on “Inequality and Social Welfare Theory” for all editions since its constitution in 2005 held in Canazei (<http://dse.univr.it/it/>)

Organizer and scientific member of the International Doctoral (Summer) School on “Development Economics” for all editions since its constitution in 2008 (<http://dse.univr.it/ssdev/>).

Coordinator Post-Graduate Course “Negotiate to Mediate” from 2015 - to present.

## Present research activities

He has recently completed the submission of the proposal for a Centre of Excellence Jean Monnet on “Understanding Child Well-Being.”

With the research team based at the University of Verona composed by Martina Menon (Lecturer, Ph.D. University of York), Nicola Tommasi (Advanced Stata Programmer), and Elisa Pagani (Post-Doc), including the Ph.D. students Lucia Echeverria and Getachew Belete, and the Marie-Curie Fellow Eleftherios Giovanis, Federico Perali is implementing in collaboration with Prof. Jean-Paul Chavas of the University of Wisconsin both a theoretical and applied research program on *Collective Consumption, Equivalence Scales and Welfare: from the Individual to Society*. The aim is to go beyond the traditional household-based measurement of well-being to consider individual well-being based both on income and other relevant poverty dimensions. Such analysis can significantly matter for the correct analysis of equity, gender issues, and child welfare. It is also relevant for the estimation of fiscal impacts accounting for behavioral responses both at the household and individual level.

The program addresses the following themes

- Theory
  - Structural behavioural models of consumption and leisure: the collective approach and identification issues.
  - The collective household enterprise: labour supply, household technologies, household public goods, externalities.
  - Interpersonal comparisons and equivalence scales: the cost of maintaining and raising a child, indifference equivalence scales, fertility choices, means testing.
  - From household to individual and social welfare: The Collective “Jorgenson and Slesnick” Social Welfare function. Fiscal microsimulations.
- Applications
  - The collective approach with household technologies and time use using the Integrated Italian Living Standard Data Base.
  - Micro general equilibrium: The “collective family” miniature economy.
  - Child poverty: Italy, Albania, Argentina and Ethiopia.
  - Household inequality and the sharing rule.
  - Collective Engel curves: From household to individual consumption.
  - How to treat household public goods: the case of individuals and households with disabled members.
  - Fiscal microsimulations, on a collective basis, where the economic impact of a change in policy is a money metric measure of the change in social welfare.

The research team is working at writing Stata commands and associated research papers with the potential to be published in the Stata Journal for the estimation of Unit Values, Collective Engel Curves, Collective Demand Systems and Collective Social Welfare Functions.

The collective research program also includes a joint work with U. Colombino and R. Aaberge on the “*Labor Supply of Married Couples using a Collective Approach and Administrative Data.*”

The team is also involved in other two major research programs that, at present, are at the stage of dissemination of results in major field journals:

- “*Understanding the Causes of Juvenile Crime in Italy,*” using primary data from Sicily and Veneto.
- “*Disability and Well-being*” using primary data about a sample of patients who suffered heavy brain injuries for the Verona and Florence provinces.

Both research programs use a case-control epidemiological approach to implement causal analyses.

Joint with Ravi Pendakur (University of Ottawa, Department of Sociology) and Martina Menon (University of Verona), Federico Perali is undertaking the project “*Being a Big-Baby: Culture or Economics? Evidence from a Natural Experiment*” that compares the decision of leaving the parental nest of young adults living in households of Italian immigrants in Canada with the other Canadian households.

In collaboration with Ranjan Ray (Monash University, Melbourne, Australia) and Martina Menon (University of Verona) is implementing a research program on the topic “*Estimation of Italian Living Standards*” accounting for spatial price variation, the costs of public services and different household technologies using a) a panel of cross-section of Italian household budgets, b) the Italian Integrated Living Standard Data Base integrating the consumption survey, standard of living survey (EU-SILC) developed in collaboration of Elena Dalla Chiara and Martina Menon, and c) household budgets of France and Germany.

In collaboration with the Economics Living Lab (<http://econlivlab.eu>), the author has developed an improvement of the Italian means-testing tool ISEE that is called Fattore Famiglia (<http://econlivlab.eu/content/isee-fattore-famiglia-modalità-di-accesso-ai-servizi-di-welfare>) and is now implemented in several municipalities in Italy.

### **Working papers under review**

- Chavas, J. P., M. Menon, and F. Perali (2016): “The Sharing Rule: Where Exactly Is It?” Department of Economics, University of Verona, Working Paper Series 16/2016, under submission.
- Ciappi, S., E. Dalla Chiara, F. Perali, and B. Santagata (2016): “A Method to Measure Standard Costs of Juvenile Justice Systems: the example of Italy,” submitted to *Youth Justice*.
- De Agostini, P., M. Menon, and F. Perali (2016): “What Does the State Do for the Family and What the Family Does for the State. A proposal for Welfare Reform,” submitted to *Journal of European Social Policy*.
- Menon, M. and F. Perali (2016): “A Field Study on University Enrolment: The Intentions of Prospective Students,” Department of Economics, University of Verona, Working Paper Series 7/2015, submitted to *Labour Economics*.
- Menon, M., F. Perali, and E. Sierminska (2016): “An Asset-based Indicator of Wellbeing for a Unified Testing Tool: Money Metric or Counting Approach?” Department of Economics, University of Verona, Working Paper Series 2/2016, submitted to *Oxford Economic Papers*.

### **Working papers and Reports**

Cooper, J, F. Perali and M. Veronesi (2006): “Integrated Assessment and Management of Public Resources (New Horizons in Environmental Economics),” Edward Elgar.

#### Part I. Assessment

“Estimating the Level of Functions Supplied by a Natural Area Using GIS Information.” M. Carta, N. Gallinaro and M. Bianchi

“The Supply of Functions by Homogeneous Area Using Cluster Analysis.” P. De Agostini, V. Cicogna and F. Perali

“A Contingent Valuation Method Incorporating Fairness and Citizen Participation.” J. C. Cooper, F. Perali, N. Tommasi and M. Veronesi

“Travel Cost Estimation Conditional on Leisure Consumption.” J. C. Cooper, F. Perali, N. Tommasi and M. Veronesi

#### Part II. Management

“Identifying the Best Combination of Environmental Functions Using Multi-Criteria Analysis.” P. De Agostini

“Simulating the Impact on the Local Economy of Alternative Management Scenarios for Natural Areas.” P. De Agostini, S. Lovo, F. Pecci, F. Perali and M. Baggio

“Resolving Conflicts in a Natural Area.” M. Baggio

“Conclusions.” J. C. Cooper, F. Perali and M. Veronesi

Perali F. (2003): “*The Behavioral and Welfare Analysis of Consumption*,” Kluwer Academic Publisher, Dordrecht.

“A Demographically Modified Demand Model: Behavioral and Welfare Properties.”

“Demographics and Quality: Household Production Theory and the “Repackaging Model” Revisited.”

“Household Equivalence Scales and Interpersonal Comparisons.”

“Estimation of an Unconditional System of Tobit Demand Equations in Large Samples.”

“Indexes of Characteristics: Income and Substitution Effects.”

“The Cost of Children and the Distribution of Welfare.”

“Microsimulations of Poverty and Inequality Using the Distribution of Welfare.”

“The Colombia Social Welfare Function: Equity Versus Efficiency.”

“Issues in Data Management of Expenditure Surveys and Nonparametric Tools for Microdata Analysis.”
